

## Rhododendron (Y) 'Fantastica'

|                             |                                               |
|-----------------------------|-----------------------------------------------|
| <b>Høyde</b>                | 1-1,5 m, slow growing                         |
| <b>Bredde</b>               | 1-1,5m                                        |
| <b>Krone</b>                | round/spherical, dark, dense crown            |
| <b>Blad</b>                 | green, evergreen                              |
| <b>Blomster</b>             | flowers in May                                |
| <b>Torner</b>               | Ingen                                         |
| <b>Giftighet</b>            | har giftige komponenter                       |
| <b>Jordtype</b>             | loamy soil, sandy soil, peaty soil, acid soil |
| <b>Belegning</b>            | tåler delvis belegning                        |
| <b>Vinterherdighetssone</b> | 5b (-26,0 til -23,4 °C)                       |
| <b>Andre motstander</b>     | motstandsdyktig mot frost (WH 1 - 6)          |
| <b>Anvendelse</b>           | tretønner, tak hager, terrassehager           |
| <b>Form</b>                 | yakushmanum hybrider                          |

This rhododendron is a strong yakushmanum cultivar, with a compact wide upright habit and dark green foliage. The flowers grow in big clusters and are dark pink-red in the bud. On opening, the flowers are pink with a pale pink heart. 'Fantastica' flowers extremely richly, with striking colours.
